

ENVIRONMENTAL INTERNATIONAL  
CONSULTANTS

---

**ENVIRONMENTAL &  
SUSTAINABILITY  
SERVICES**

## ABOUT US

Environmental International Consultants was originally set up as a representative office of a reputed multinational environmental consulting firm headquartered in the United States in 1997. In 2006, EIC became an independent entity with its headquarters in Dubai and since then continues to extend environmental, industrial hygiene and safety consulting & training services to a wide range of clientele across Middle East, India and Africa.

Since early 2000, EIC has served hundreds of clients in various sectors helping them transform their processes to be more efficient and environmentally friendly. EIC has worked on a multitude of projects ranging from oil and gas, manufacturing, heavy industries to green sustainable buildings.

Being one of the first few companies to get registered / accredited by Dubai Municipality, Trakhees and the Federal Environmental Agency (FEA), EIC has extended comprehensive environmental services throughout the United Arab Emirates.

## PIONEERING SPIRIT

Innovation, zeal for research and development over the past two decades has positioned EIC as a pioneer in various environmental studies, hydrogeology, environmental site assessment and contaminated site remediation.

We were the first to bring Net Skimmers, a unique remediation equipment to the UAE, for recovery of free phase oil on water.

First to deploy Oleophilic Mop Skimmers for Dubai Municipality to clean Dubai Creek.

First to introduce Solar Powered Remediation equipment in the UAE.

First to successfully deploy a Bio-Remediation Technique for a hydrocarbon contaminated site in the UAE.

# SUSTAINABILITY SERVICES

- GRI Report Development
